exercise development iv 6. PHEOC training and exercise programme 23 6.1 Establishing the programme 23 6.2 Implementing the programme cycle 23 Annexes 25 Annex 1: Public health emergency management core competencies 26 Handbook for Developing a Public Health Emergency ... They play a key role in identifying the strengths and gaps in the development and implementation of preparedness and response measures. A simulation exercise is a form of practice, training, monitoring or evaluation of capabilities involving the description or simulation of an emergency, to which a described or simulated response is made. WHO Simulation Exercise Manual The Homeland Security Exercise and

Evaluation Program (HSEEP)

Provides a set of guidance that any organization can use to structure an effective exercise and evaluation program with a common approach to program management, design and development, conduct, evaluation, and improvement planning. Exercises - Federal

Emergency Management

Agency Tabletop exercises are based on a design process that includes the following:

1. Assess Needs

Prior to developing an exercise, an organization should first conduct a needs assessment to assist in defining the problems, establishing the need for the exercise, and identifying the functions that need to be exercised. Areas to consider during the assessment process may include

the Exercise Design Steps | Department of Emergency Management Exercise Design and Development Key factors drive the exercise design and development process. Exercise practitioners use the intent and guidance of their elected and appointed officials and the exercise program priorities to shape the key concepts and planning considerations for exercises. In designing Exercise Design and Development Defining Emergency Exercises The Center for Health Policy, Columbia University School of Nursing, provides a guide and template for developing a multiagency emergency exercise program. The guide stresses the use of a common terminology across agencies when developing, planning, implementing and

evaluating emergency exercises. Emergency Response and Crisis Management (ERCM) Technical ... Lasting four days and involving over 300 participants, the exercise was set in the early response phase with the staggered presentation of 41 cases to 36 emergency departments in the health area.
